Natural language

Natural language may be specified for text in a document or for optional content. The natural language used for text in a document shall be determined in a hierarchical fashion, based on whether an optional **Lang** entry (PDF 1.4) is present in any of several possible locations. At the highest level, the document's default language (which applies to both text strings and text within content streams) may be specified by a **Lang** entry in the document catalogue.

Outlines:
- 7.2-3 Text
- Lang entry is present for each structure elements
- Expected result: pass
